

Highways and Infrastructure Report

Meeting date 27th September 2022

Highways –

SAM2 – currently located in Meeting Hill. Data from Westwick Rd will be available in Dropbox prior to meeting. Sign with software installed to record vehicle speeds seems to be working correctly at present.

Barnards Road Speeding - following meeting held on site with Justin Le-May (NCC Highways) and Saul Penfold awaiting to hear when agreed pedestrian signing is to be installed.

Fish and Chip Van signage – when the van does decide to turn up the additional signage appear to be working effectively.

Infrastructure –

Village Gateways / Roundels – Parish Partnership money may be available to fund the scheme. Westwick Road and Withergate Lane suggested as potential locations at last PC meeting. Photographs and verge widths sent to Justin at NCC Highways for budget costs for consideration by PC regarding proceeding with Parish Partnership bid.

Trod / Roadway at Primary School – request from school on possible funding to support a scheme which provide access for pupils to the rear (field side) of the school. PC unable to support as potential scheme is on private land.
